Port Luis, Island of Maritius, April —The German steamer Juliette, late British steamer Dunolly Castle which cleared from Diega Suarez, Mad agascar, April 14, for Batavia, Java, put in here today and asked for 900 tons of coal. She was informed tha she would be allowed to take 600 tons but when 100 tons had been taken on board, the colonial officials stopped her from taking any more, pending in structions from the home government. He expresses the opinion that this system will have the most suc cessful results.

The foreign office here does not de ny statements to the effect that Herr Mueller will not return to Macedonia.

used as a gargle, and externally on the throat, is a marvelous remedy for these painful and dangerous disorders, and effects relief and cure after everything else has failed.

Says Henry Wade, of Harlin, Mo.: "I am under obligations to you for the great good which Hamlins Wizard Oil did my wife. She suffered from Throat Trouble for a year, and though she doctored and doctored, nothing did her any good, until she tried Hamlins Wizard Oil." Price 50c and $1.00.

BABY BURNED TO DEATH.

Children Fooled With Matches, Which Ignited Infant's Clothes.

Traxler, April 20—Friday Mahamery's two-months-old baby met a most terrible death today while its mother was working away from the house. The other children tried to light a pipe while on the bed by the babe, and set it on fire, and as no one was near the place the babe was burned in the house, but the two larger children were saved.

Death at Prairie Creek.

Deceased was one of the oldest residents of the county, being eighty-two years of age at the time of her death. The remains passed through this city Thursday en route to Alachua, and the funeral will be held at that place today, the interment being in Newnansville cemetery. The arrangements will be in charge of the Thomas Undertaking Company. The Sun extends sympathy to the bereaved family.

When France Had No Sabbath.

It was during the French revolution of 1789 that a weekly Sabbath was totally abolished. The national convention which declared France a republic determined at the instance of Gebet, archbishop of Paris, to abandon Christianity and to substitute instead the worship of liberty, equality and reason. Churches were quickly despoiled and civic feasts substituted for religious festivals. The convention also enacted that time instead of being reckoned from the birth of Christ should thereafter count from the birthday of the French revolution, the year to begin anew from that date, Sept. 22, 1792. That the Christian Sabbath might not be observed the months were to consist of thirty days each, a day of rest being granted only at the close of each decade (every ten days). Under the directory established by a new constitution in 1795 the laws of Robespierre were repealed, the churches were reopened, and Sunday took its rightful place in the calendar.—Pearson's Weekly.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Barnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." CUSTOMS IN MOROCCO.

The Scene at the Slave Market In Marrakiah.

"From time to time we are taking our meals in the open air," writes a traveler to Morocco. "I see the shepherd boys staring at us from a respectful distance. To them we must seem no better than savages. In the first place, we sit on chairs and not on the ground. We cut our bread, which, as every true believer knows, is a wicked act and defies Providence, since bread is from Allah and may be broken with the hand, but never touched with a knife. Then we do not know how to eat with our fingers, but use knives and forks and spoons, that after mere washing are common property. We do not have water poured out over our fingers before the meal begins—the preliminary wash in the tent is invisible and does not count—and we do not say 'Bismillah' before we start eating. Our daily bathing seems to puzzle them greatly. I do not notice that little Larbi and his brother Hassem ever tempt the sea to wash or drown them. Yet they look healthy enough and are full of dignity."

Vividly delineated, too, by the same writer are the scenes in the slave market at Marrakish. "The various booths where the salesmen keep their slaves of all ages and both sexes, are carefully screened from sight until the market opens. Then one at a time these booths empty themselves of their contents and men, women and children are marched around the inclosure, the auctioneer crying out the latest bid, and the slave owner pointing out the best features of his articles for sale.

"They are all gorgeously attired and decked out to show them off to the best advantage. One by one the youngest and the fairest and the fittest are chosen until at the end of the long, hot day only a few aged and weary and worn are left. They have tramped round and round the market all day long, but they are old and therefore not wanted."

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit innoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

The editor of The Independent at Burlington modestly remarks that he is not an angel and when he dies he does not want a lot of eulogistic lies printed in the newspapers about him.

An Irishman walking through a graveyard, saw a tombstone on which was inscribed: "Here lies a lawyer and an honest man." "Be jabers," said Pat, "Oi wonder how they came to bury both iv them fellars in wan grave?"

There are some things besides blood-poisoning that are calculated to make people dread a major sugical operation. For instance, a Chicago surgeon, now dead, operated on a woman and left his forceps in her when he closed the wound, necessitating another operation a year later.

By expanding his business and following legitimate lines in the last century, without resorting to speculation or monopoly of sharp practices, Adam could doubtless have increased his savings beyond $10 a day. But he could hardly have piled up what would have been considered a modern fortune, and the chances are that Mrs. Astor would not have invited him to any of her annual balls.

ADVERTISING GRAFTERS.

The following article from The Mobile (Ala.) Herald is also applicable to many other cities and towns in this country. The Herald says:

"One of the nastiest words in use today is the term 'grafter.' It has a broad range of meaning, applying equally as well to the public officer who accepts indirect bribes as to the social 'sponge' who eats on his friends and borrows what he never expects to pay. But in all the numerous classes of grafters there is none who from a business standpoint is more dangerous than the advertising grafter. Dangerous because of the insinuating manner of his work. He makes his living by his wits. He is the same genius in the advertising field as the street corner fakir, who sells worthless shaving soap, toothache cures, cure-all remedies, etc.

"He lands in town today, looks up the president or secretary of some labor union and offers him $10 for the union and $10 for himself to get a letter stating that he is authorized to get up an official union time book.

"He arranges it so that half the inside pages and all the covers carry ads. Say that the printer's charge is $20. Then this privilege costs him $40. He has 16 pages of ads besides the four pages of cover. His advertising space then costs him $2 per page.

"With this letter of endorsement he goes out to solicit the 'support' of the business community for the benefit of the union. Such a benevolont man he is.

"Then he looks over the firms in a certain line and marks various firms' names down as having taken certain spaces. He then puts the screws on another firm in the same line by showing that the merchant's competitors are all in and he should dislike to have the union form the opinion that his house was the only one that refused the union much needed friendly help. He gets the ad and gets $5 for a quarter page.

"Then he rung out another name and applies the same process to that firm and gets another $5 and so on.

"The result is that he gets an average of about $10 to $15 a page for his twenty pages, clearing up about $200 for himself in a week or ten days at most. Then he kisses the town a fond good-bye and posts a fellow grafter that its merchants are dead easy.

"The same game is practiced with all sorts of lodges, societies, unions, philanthropics, charitable organizations, etc., as a base.

"As the 'worthy charity' gets only about 5 to 10 per cent of the total, the merchant can mail the charity his check for a few dollars once a year, do more to the charity and save himself 80 per cent of this 'hold-up' expense.

"Mobile merchants are peculiarly susceptible to the advertising grafter. Merchants who will not spend a cent with the daily papers easily fall victims to his guff and put good sound dollars into timetables, fire alarms and a dozen other fakes that are never read. If one-half the money spent by Mobile business men every year in useless advertising of this kind were divided between legitimate mediums there would be a marked improvement in the style and service of all the newspapers.

"A man who follows this line of work regularly was recently offered above the average wages to solicit for a Mobile paper. He declined, stating that he could make much more 'grafting.' He said Mobile merchants were 'easy,' and that he could make more in a week grafting here than any paper could afford to pay to him for a month's work.

"And we believe he spoke truthfully."

New Mississippi Bridge.

Thebes, Ills., April 20.—A special train bearing Vice President and General Agent S. R. Britton, of the St. Louis Southwestern road, and other officials of the road, crossed the Mississippi river here by the Cotton Belt road, informally opening the structure to traffic. Two hours later the northbound Cotton Belt through passenger train from Texas steamed across the bridge, and the two ferry boats that have been used by the road for years passed into antiquity. The railroad officials stated that the bridge means a saving of hours on the schedules, as frequently heavy fogs on the river have caused a delay of five hours in transferring.

Angry Man Shoots Actress.

Philadelphia, April 20.—Because she intended leaving the theatrical company of which both were members, Edward Smedes shot Bessie Helen Davis at the Thatrical hotel, where they were both staying, inflicting a probably fatal wound near the heart, and then attempting to kill himself. The bullet flattened against his skull, and he was not badly hurt. The couple were members of the chorus in "The School Girl" company, of which Edna May is the star. The woman is known on the stage as Bessie Dale, she is 23 years old, and her home is in Hebron, Neb. Smedes' home, it is believed, is in Vicksburg, Miss.

REPORTER

Norfolk Secures Big Convention.

Norfolk, Va., April 20.—Norfolk will secure the annual meeting of the Southern Wholesale Grocers' association, to be held June 5, 6 and 7. President J. A. VanHoose, of Birmingham, Ala., has intimated to the wholesale grocers and tobacconists' association of Tidewater, Va., that the southern body which has been meeting heretofore at South Atlantic ports, would be pleased to come to Norfolk this year, and the local organization will at once seek the co-operation of other business bodies with a view to securing the southern meeting which will bring over 500 wholesale men and jobbers here. The idea is to hold the convention either at Ocean View or Virginia Beach.

Lawyer Who Killed Man Debarred.

Birmingham, Ala., April 20.—A sensation was caused in the criminal court when Solicitor Heflin declined to allow Roland Shugart, a young lawyer, to participate in prosecuting a criminal case although Shugart was retained by the prosecution. The trial judge sustained him and an appeal will be taken to the supreme court. Roland Shugart killed a man two years ago and the relations have been strained between his family and Heflin since that time.

SAYS WOMAN IS HOUNDING HIM.

Railroad Contractor Secures an Injunction Against Pursuer.

Knoxville, Tenn. ,April 20.—W. J. Oliver, a prominent railroad contractor of this city, filed a sensational bill in chancery court against Miss Nonnie Cross, enjoining her from hounding him and members of his family and from interfering with his office, residence and railroad construction work in this and other states, particularly Georgia.

Chancellor Sneed granted the injunction and bond for $5,000 was given.

Some time ago Miss Cross brought suit against Mr. Oliver for $100,000 damages for alleged breach of promise, the alleged proposition of marriage having been made while Mr. Oliver was a widower and previous to his second marriage.

He claims that he has paid her something over $3,000 in full settlement of her alleged claims.

Last Hope Vanished.

When leading physicians said that W. M. Smithart of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for consumption, coughs and colds kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throats or colds; sure preventive of pneumonia. Guaranteed, 50c and $1 00 bottles at all drug stores. Trial bottle free.

Denies Habeas Corpus Writ.

Boston, April 19.—The application of Arthur E. Appleyard for a writ of habeas corpus to prevent his extradition to New York was denied today by Justice Morton, of the state supreme court. The extradition which was recently authorized by Governor Douglass was asked for by New York authorities in connection with the indictment of Appleyard for alleged grand larceny from the German bank of Buffalo. Counsel for Appleyard announced that he would take a habeas corpus appeal to the United States supreme court.

Guilty of Carrying Cigarettes.

Muncie, Ind., April 19.—Chester Bell, a young white man, was fined $25 and costs, amounting in all to $35, today in the police court on the charge of having cigarette papers in his pocket. Bell said he had never smoked a cigarette in his life. He was arrested on another charge and on being searched the papers were found in his possession. This is the first penalty assessed in Indiana since the anti-cigarette bill became effective.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." All druggists guarantee them at 50c.

A Snub For Moliere.

A remarkable incident is reported for a suburban theater in Paris. The play was "Tartuffe," and at the end of the fourth act the manager of the company came in front of the curtain and said, "Ladies and gentlemen, we shall not go any further with this piece, for the fifth act is unworthy of Moliere." How the audience took this announcement is not stated. Perhaps they went home and read the fifth act critically in the seclusion of the library.

Ballard's Horehound Syrup

Immediately relieves hoarse, croupy cough, oppressed, rattling, rasping and difficult breathing. Henry C. Stearns, Druggist, Shullsburg, Wis., writes May 20, 1901: "I have been selling Ballard's Horehound Syrup for two years and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25c, 50c, $1.00. Sold by W. M. Johnson.

Where He Made His Money.

Years ago a gentleman settled in the south of England and became very popular in the neighborhood. The county families could never discover how he had made his money, but were satisfied by his solemn assurance that it was not in trade. Nothing could exceed the ordinary gravity of his demeanor, which, indeed, caused him to be placed on the commission of peace, but now and then, without any apparent provocation, he would burst into such a laugh as no one ever heard before except in one place.

Where they could have heard it puzzled the county families for five and twenty years, but at last he was betrayed unconsciously by his own grandchild, who after a visit to a traveling circus innocently exclaimed, "Why, grandpa laughs just like the clown!" —James Payn.

Horses In the Time of Homer.

The horses used in Homer's time were war horses. The warriors were drawn in chariots. The art of riding was known, but it is alluded to as something unusual. Ulysses at the time of his shipwreck "bestrode a plank, like a horseman on a big steed." There are reasons for believing that the practice of riding was much later than that of driving, and the myth of the centaur, where, according to Shakespeare, "man is incorpsed and demi-natured with the beast," probably originated at an early period when the appearance of a man on horseback was a novel sight.

A Dandy for Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c, $1.00 bottle. Sold by W. M. Johnson.

J. P. Morgan Sees Italian King.

Rome, April 20.—King Victor Emanuel today received in private audience J. Pierpont Morgan who thanked the king warmly for the grand cordon of Saints Maurice and Lazarus, which he wrote. The king was most cordial in his manner toward Mr. Morgan and made the American financier sit next to him. He expressed his personal gratification at the generous act of Mr Morgan in returning to Ascoli, the cope stolen from the cathedral there and sold to him by an unknown person. The conversation which was carried on in English lasted half an hour. Later the King received United States Senator Nelson W. Aldrich of Rhode Island.

Anniversary of Lexington Battle.

The day also marked the formal opening of out-door life and sports of many kinds were inaugurated. Chief among the athletic events was the Marathon road race, at Ashland, and ending in the Back Bay section of this city.

Thought Physician Was Robber.

Richmond, Va., April 20.—Thinking an attempt to rob the bank was being made, Dr. Lawrence Anderson Bragg, a druggist who has rooms in the Citizen's National bank building at Covington, Va., early today shot in the direction of the noise, killing Dr. Alexander Nelson, of the staff of the Western State hospital, who had arrived on a late train to visit his brother, Attorney George Nelson. In endeavoring to reach his brother's room near the bank, Dr. Nelson lost his way and was at the entrance of the bank building when killed.

Primrose Day Is Observed.

A Thousand Dollar's Worth of Good.

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thurnes, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me $100 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. Sold by J. W. McCollum & Co.

SHAM ARMOR.

Story of a Once Famous Vessel in the Russian Navy.

Among the anecdotes told by Colonel F. A. Wellesley in his book, "With the Russians In Peace and War," is one concerning a once famous vessel of the Russian navy. When the ironclad Peter the Great, from which so much was expected, was in course of construction the deputy acting minister of marine, on being suddenly asked by the czar what progress the ship in question was making, lost his head and replied that she would be ready for sea in three weeks. "The emperor expressed great satisfaction at the news and said that he would shortly inspect the vessel at Cronstadt. It so happened, however, that, far from being ready for sea, the ship was still in dock and that her armor plates, which were being rolled in England, had not even been delivered. In view of the emperor's threatened visit all useful work on board the ship was stopped, and hundreds of men were set to work night and day at the erection of cabins, the covering of the ship with sham armor, the erection of wooden turrets and the like.

"When the Duke of Edinburgh came to Russia I told his royal highness this story," continues Colonel Wellesley, "which he was most reluctant to believe. I told the duke, however, that he would soon have an opportunity of judging for himself at a naval review, and I predicted that, as he was a naval officer and therefore sure to detect anything wrong, some excuse would be made to prevent his going on board that particular ship. The duke expressed to a Russian naval officer his desire to visit that ship, but objections were raised to his doing so.

"Then the emperor, noticing that something was wrong, ordered a boat to be lowered immediately to take his royal highness on board. After the review the duke told me that I was wrong about the turrets being made of wood, as he had placed his hand on one of them, and it was made of canvas and yielded to the pressure of his fingers."

Frightful Suffering Relieved.

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at all drug stores, guaranteed.

A SWIMMING HORSE.

The Proper Way to Ride the Animal In the Water.

A military journal of Paris gives this account of the way a horse should not be ridden and of the way he should be ridden in swimming a stream:

To begin with, it must not be supposed that a horse always swims naturally and with ease the moment he is off his feet in the water. The animal under such circumstances has but one notion—to keep his head out of the water and to lift his shoulders as high as possible.

In doing this his hind quarters sink, and he finds himself almost standing upon his tail, or at least in a position three-quarters erect.

In such a position, if the rider draws upon the reins or throws his body back in the least, the animal's hind quarters will sink more and more, his body will take a vertical position, and, beating the water uselessly with his forefeet, he will finally sink.

As soon as the horse gets off his feet in the water let the rider grasp a handful of the animal's mane, leaning at the same time well forward upon his shoulders, but without touching the horse's head. The rider's knees should be pressed tightly to the horse's sides; otherwise he is likely to be swept off by the water.

This is the only position which will enable a man to remain in the saddle and the horse to swim at the same time.

The reins must be held loosely and each well to one side. If the horse is to be guided in the water give the loose rein a little jerk in the direction desired. But it is in the highest degree important never to pull on the reins.

THE OCEAN STEAMERS

FLOATING CITIES WITH A VARIETY OF OCCUPATIONS.

The Diversion of Industry and the Trades and Professions That Are Represented In the Crew of a Great Atlantic Liner.

The great Atlantic liners have often been described as floating cities, and in at least one particular the comparison is entirely accurate—that is to say, in the variety of occupations represented on shipboard. A big steamship will in her flight from land to land carry a population of perhaps 2,000, of whom the majority, of course, are passengers—people of all professions and lines of business. Leaving passengers out of account, however, and considering only the 500 or thereabouts who go to make up the liner's crew, one will easily find representatives of nearly all the trades of a thriving community ashore.

This diversity of industry represents an evolution—or, rather, a revolution—that has come along with the development of the gigantic modern steamship. In the old days of sailing ships all the members of the vessel's crew were sailors and performed one part or another of a sailor's work. Even the redoubtable cook was usually much better versed in matters relating to spars and ratlines than he was in the secrets of the culinary art. But today the status is different. Navigation of the big Atlantic fliers is a complicated task, and the number of men required to carry it on is ten times greater than on even the biggest ships of a century ago. The variety of their vocations has of course been multiplied to correspond with the increased complexity.

The sailors are in a small minority nowadays. True, you will see a number of seamen on the big ships, and these still have their duties to perform, duties which, however, have nothing to do with the handling of sails, for not in a number of years has canvas been spread on any of the big liners. But common sailors seem few in comparison with the men of other trades whose usefulness on shipboard the sea captain of a generation or two ago would have found hard to explain or even understand.

Some of the greatest changes in the conditions of service have come about, naturally enough, through the introduction of steam machinery. The presence of machinery means that the liner must carry not only a number of engineers, but also several machinists to keep in order the complicated mechanism of pumps and blowers and deck engines which a big vessel carries. Then, since every great passenger ship is provided throughout with a modern plumbing system, she must have in readiness a qualified plumber. An expert electrician is also needed to look after the electric lighting plant, a refrigerating engineer for the cold storage plant and a number of other representatives of different branches of the engineering profession.

Instead of the ancient cook with his very limited accomplishments the up to date liner has an expert chef, besides bakers, confectioners and also the other gastronomic specialists to be found in the big fashionable hotels ashore. A ship's butcher cuts the roasts and joints and takes general charge of the meat supply, and there are several storekeepers, who, it is true, do not sell goods, but who keep as exact account of all the groceries and other supplies issued for the use of passengers and crew as though their livelihood depended upon it.

Besides these, every liner carries a barber, for passengers long ago gave up the habit of going unshaven from beginning to end of the voyage. The barber has a comfortable little shop, and next door to him perhaps is installed the barkeeper, who from the nature of his clientele is required to be adept in mixing the drinks of all nations. Still more surprising to the inexperienced traveler it will perhaps be to learn that the big steamships carry four or five bootblacks to keep the passengers in shines.

Of the learned professions the only one regularly represented is that of medicine. Every liner carries a surgeon, who not only attends to passengers or members of the crew who may fall ill, but who is also charged with the general supervision of the health and sanitation of the vessel. There are usually plenty of "sea lawyers" on board—not that there is any demand for legal services—and if clergymen are not among the passengers the captain or purser is qualified to read the service on Sundays.

The issuing of a paper containing telegraphic news involves of course an editor and a wireless telegrapher. The editorial duties are assumed by the purser, and the wireless operator not only receives the news for the ship's paper, but takes and transmits messages for the passengers as well. The ship's printer prints not only the ship's newspaper, but the daily menus and concert programmes as well.

Most of the liners carry one or more musicians. Some have fully equipped bands that furnish daily music, and those liners which do not include a complete musical outfit have at least one or more buglers to sound the calls for meals and for inspection.

Every liner has on board a carpenter who makes necessary interior repairs and looks after the boat's tanks and wells, and there are to be found among the stewards and seamen handy men of other trades. All of which goes to show that the modern "floating city" is a very cosmopolitan and, if need be, a very self reliant community.

Advice About Eggs.

A writer in the Delineator gives some sensible advice about eggs. There is a general impression that eggs, acknowledged to be a complete food, may be safely eaten on all occasions. On the contrary, as the writer alluded to points out, invalids and young children should never be given eggs unless they are very fresh. Persons suffering from biliousness, gastritis and several other troubles find difficulty in digesting even fresh eggs. Some physicians declare that the slightest tendency toward rheumatism makes eggs undesirable. The white of eggs whipped to a froth with a little water is a good thing to give fever patients, as a rule, but the physician should be consulted before even this is given to a sick person.

A Dare-Devil Ride

Often results in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at all druggists.

How to Preserve Wooden Posts.

To preserve wooden posts bore with an inch and a quarter auger from the butt of the post to a distance that will be six inches above the ground when the post shall be set. Then char over a good fire for a quarter of an hour, so as to drive all moisture out of the heart of the butt through the hole bored; fill the hole with boiling coal tar and drive in a well fitted plug, which will act as a hydraulic ram and force the tar into the hot bores of the wood, which will become thoroughly creosoted and last sound for twenty years in place of four, as in ordinary cases. A four inch post may have one hole in its center; six inch, two, side by side; eight inch, three; twelve inch, four. Posts which are already in the ground may be bored diagonally, filled with hot tar (in the dry summer time), plugged up and repainted. Sleeper posts for floor joists should be treated in this manner, and then their bases surrounded with a cup of puddled clay, into which pour hot coal tar. Posts thus treated cannot decay.

New Year In Japan.

As early as Dec. 13 a special house cleaning prepares the way in Japan for the New Year festival, and as the year closes the house fronts are bright with decorative emblems. The whole week, which includes New Year's day, is a continuous holiday, and on fine days when the sun shines the scene in the streets is most animated. Shop fronts are gay with a goodly display of toys and seasonable presents, all are in the best of spirits, the children are busily at play with kites and battledoors, and every one is doing his or her utmost to make things hum. In higher circles the mikado receives the civil and military officials, who in former days appeared in gorgeous uniforms and richly embroidered dress, but since 1872, when the Gregorian calendar was introduced, European costume has been worn and the festival has been much less picturesque.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very serious nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctors said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can say for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am

Sale Extraordinary of the Celebrated American Lady Corsets

There is a very special reason for this extraordinary sale. It is a rare opportunity, and one that should be taken advantage of. Nothing but the newest goods in all the newest shapes and materials will be offered. Most of you are wearing these Corsets now—to you little need be said; you are our strongest advocates. It was for the purpose of familiarizing every woman of this city with the many merits of AMERICAN LADY CORSETS that the manufacturers allowed us to make the following special offer:

Beginning Monday, April 17, and Continuing to Saturday, April 22, Inclusive,

We will accept as 25c on the purchase price of each Corset one coupon, that is to say, during the above dates you can secure a $1.00 Corset for 75c, a $1.50 Corset for $1.25, $2.00 Corsets for $1.75, etc. Remember that AMERICAN LADY CORSETS have never been sold for less than $1.00, and that it is a rare occasion when you can buy this celebrated Corset at a reduced price.

For the benefit of those who have failed to receive one of the green coupons, we reprint same here. Cut it out and bring it to the store.
